

SECOND GRADE

Christina Daucher
Room 9 Extension 109

My mission is to create a classroom environment where we challenge ourselves and one another. We are willing to take risks, learn from our mistakes, and celebrate our successes.

Lisa Johnson
Room 10 Extension 110

My mission is to inspire my students to want to learn and to challenge themselves. I want to foster or create an enthusiasm for learning and not be afraid to try things that may seem hard. In the classroom I want them to have a sense of community, to feel that we are a family at school and we need to care for one another and be empathetic. It is my mission for my students and their parents to know I have their best interest at heart and I want them to succeed in everything they do.

Kimberly Todd
Room 8 Extension 108

My professional mission is to inspire my students to become lifelong learners through example, love, and laughter. I aim to encourage their respect and curiosity in the world around them while they strive to do their best in all aspects of their lives.
